Construction work starts in Kapteeninkatu the house for assisted living

Extensive construction work is starting in Kapteeninkatu, Palosaari. This is already the fifth house for assisted living built after the intention contract signed by Pikipruukki and the City of Vaasa in spring 2014. The main contractor for the house for assisted living is Lemminkäinen Talo Oy, which has a good experience building houses for assisted living. City of Vaasa will be the service provider for inhabitants to be.

The house for assisted living in Kapteeninkatu 32 will besides 60 clear assisted apartments. Inhabitants of the house will also get room for exercising, sauna and stimulus. This house is an intensive care unit where the employees are present round the clock.

The house for assisted living will be ready in March 2018. Overall expenses of the project are 6,8 million €.

We welcome you to the construction site; address Kapteeninkatu 32, on Thursday 2.2 at 9.30 am.
